

Ayala Pollack

Inventor and medical director

Company: **OphtimedRx**

OphtimedRx develops leading products for treatment of ophthalmic diseases which result in blindness and with unmet medical needs. Two major diseases are in the focus of OphtimedRx, proliferative vitreo-retinopathy (PVR) and dry age-related macular degeneration (AMD), in particular geographic atrophy. The company was established in Israel in 2015 by Prof. Ayala Pollack, M.D, former Head of the Ophthalmology Department, Kaplan Medical Center.
