

## **Eric Tansky**

Eric Tansky is a Managing Director and leads Oppenheimer & Co.'s Medical Device franchise.

Eric has worked in the Medical Device sector for ~20 years with >15 years of Medical Device Investment Banking experience and several years as an OR based Orthopedic sales rep.

Eric's transaction experience covers a full spectrum of Medical Device M&A and financing (private, public, equity, equity-linked and debt) advisory assignments for a broad range of clients from large-cap to development stage companies.

While having advised on some of the largest M&A transactions in the sector, Eric spends the majority of his time on strategic and financing advisory assignments for best-in-class emerging medical device companies.

Eric has been a frequent visitor to Israel over the past decade and regularly serves as an advisor to Israeli med tech companies on strategic and financing advisory assignments.

Since coming to Oppenheimer 18 months ago, Eric and the medical devices team at Oppenheimer have advised on 16 successful med tech strategic and financing advisory assignments

Eric spent several years as an Orthopedic sales consultant and a Submarine Officer and U.S. Navy Diver

Eric has a BS in Weapons System Engineering from the U.S. Naval Academy and was noted as a Distinguished Graduate and winner of the Brainard Award, MBA from Columbia Business School
