

Ulrich Brinkmann, PhD - Expert Scientist

Roche Pharma Research & Early Development - Large Molecule Research. Roche Innovation Center Munich (RICM), Penzberg, Germany.

Dr. Ulrich Brinkmann is a member of Roche's Large Molecule Research organization within Pharma Research & Early Development at the Roche Innovation Center Munich (Penzberg, Germany). His work focuses on protein & antibody engineering, bispecifics, and on delivery platforms for targeted payload delivery. Prior to joining Roche, he served as CSO in functional genomics and pharmacogenetics companies Xantos and Epidauros. His previous work in Ira Pastans Molecular Biology Lab at the NIH/NCI in Bethesda, USA focused on antibody stabilization and engineering technologies, and on generating recombinant immunotoxins for cancer therapy. Dr. Brinkmann is author of numerous publications and inventor of many patents covering recombinant antibodies, pharmaco- & functional genomics, immunotoxins and protein engineering technologies and applications.
