

Patrick J. Grother

Patrick Grother is a scientist at the National Institute of Standards in Technology responsible for biometric standards and testing. He leads the FRVT, FRPC, FIVE and IREX programs supporting face and iris recognition technologies in national-scale identity management. He co-chairs NIST's International Biometrics Performance Conference on measurement, metrics and certification. He edits the biometrics specifications for the US Government's PIV credentialing program, for which he received his second Department of Commerce Gold Medal. He assists a number of US Government agencies on research, development and evaluation, and serves as editor of several ISO standards - he received the IEC 1906 Award in 2009 and the ANSI Lohse IT Medal in 2013.
