

Ravi Piduri

**Ravi Piduri** has been leading “Information Security” strategy in Microsoft Enterprise Services Delivery. The practice plays a key role in completing end to end story of Microsoft Services by delivering solutions to customers across the globe which take care of security and privacy aspects. As Chief Information Security Advisor, Ravi is also accountable for driving the innovative information security focus areas across Enterprise Delivery.

**Ravi** brings to the role more than 21 years’ experience running delivery organizations focused on product development, services, security and technology innovation. He worked in global delivery teams in multinational organizations like IBM before joining Microsoft in the US. He has a keen interest in technology and has been successful at establishing teams to use promising new technologies in building innovative customer solutions – including technologies like Identity and Access Management, Azure\O365 Cloud, IoT, Windows Mobile and Dynamics. Ravi was previously Information Security Director for Microsoft’s IT division responsible for APJ\EMEA regions and was accountable for division’s technical strategy, customer/industry engagement, business management and operations, as well as played a key role in driving business development for Microsoft’s identity and security products for Enterprise and Mid-Market customers.

A proud alumni of IIT, Chennai and a double gold medalist, Ravi worked with various multinational firms before joining Microsoft. He spent 11 years in USA managing Financial services firms before moving back to India

Ravi is an avid reader of books on anthropology, philosophy and psychology. Some of his favorite authors are Rousseau, Voltaire, Gorky and Jiddu Krishnamurti
