

Eran Agmon

VP Product | Medisafe

Eran Agmon is VP Product at MediSafe. He has extensive experience in managing a product's life cycle, with deep knowledge of the health & wellness market.

Prior to his work at MediSafe, Eran worked as a senior product manager at Healarium Ltd., a Patient Activation Platform, focused on the US market. As part of his work there, he managed long term product interaction with leading health and telecommunication US companies, from requirements to high quality delivery.

This led to his valuable understanding of both how to grow in the US health market as well as addressing patient behavior patterns and needs.

Eran holds an MBA in Technology Management, Innovation and Entrepreneurship from Recanati Business School, Tel Aviv University and a B.Sc. in Computer Science from the Academic College, Tel Aviv Yafo.
