

**Veronica Descotte**  
**Senior Manager, Strategy & Portfolio Management**  
**Patient Monitoring & Recovery**  
**Medtronic**

Veronica is part of the Strategy and Business Development team at Medtronic, focusing on the newly formed Minimally Invasive Therapies Group (formerly Covidien). She joined Covidien in 2014 to focus on growing the Respiratory and Monitoring Solutions franchise, and is now supporting the broader Patient Monitoring and Recovery Group. Prior to MDT, Veronica spent five years working in Venture Capital, investing across the Healthcare space with a strong emphasis in Medical Devices. Before joining the medical device industry, Veronica was a scientist at the University of Minnesota studying molecular genetics.
