

Sigal Berman (www.bgu.ac.il/~sigalbe) is an associate professor in the Department of Industrial Engineering and Management at Ben-Gurion University of the Negev. She received a B.Sc. in Electrical and Computer Engineering, from the Technion; a M.Sc. in Electrical and Computer Engineering, and a Ph.D. in Industrial Engineering, both from Ben-Gurion University of the Negev. She was a Postdoctoral fellow at the department of Computer Science and Applied Mathematics at The Weizmann Institute of Science. Sigal leads the Telerobotics laboratory where robotic control and human-robot interaction methodologies are developed and assessed. Sigal has applied advanced mathematical methods for modeling and analysis of arm motion in healthy subjects and in patients with stroke. Her research interests include robotics, manipulation, and human motor control. Sigal is a member of the Institute of Electrical and Electronics Engineers (IEEE), the American Physiological Society (APS), the society for Motor Control and is the BGU representative to euRobotics AISBL.
