

Ronny Ginor, M.D

Ronny Ginor, M.D., is a Venture Partner with OrbiMed. Dr. Ginor has been active in the life science industry for 20+ years, with an emphasis on drug delivery platforms, vascular medicine, oncology and regulatory strategies. Most recently, Dr. Ginor served as CEO of Becker & Associates Consulting, an FDA consulting firm which was acquired by a multi-national corporation in 2012. Dr. Ginor served in the Israeli Defense Forces Unit 8200 prior to earning undergraduate and medical degrees from the George Washington University. He trained at Memorial Sloan Kettering Cancer Center in New York, and published on three dimensional conformal radiation therapy of the prostate. He performed an acting internship at Stanford, where he focused on Non-Hodgkin's lymphoma. Dr. Ginor has patented technologies related to breast cancer, thyroid disease and cardiology.
