Answers below should not exceed 60 words per question:

- **Executive Summary / Investment Rational**
- Epilog is developing the first of its kind companion tool for people dealing with life-limiting illness backed by the world's leading behavioral and palliative care experts. We provide early access to quality-of-life focused care, utilizing a holistic personalized approach and connecting people to health and non-health services in their community. We raised a pre-seed and currently in a live pilot with a global health insurance company, servicing more than 30 million members worldwide.
- **Core Technology**
- Epilog's core technology supports a whole-person model of care, connecting clinical and behavioral data to support an end-to-end patient journey, starting with revealing preferences and goals of care and all the way to facilitating access to goal-concordant

care for patients with life-limiting illness. Our AI-powered companion identifies and responds to varying preferences and mental capacity over time, in real time.

- **Product Profile/Pipeline**

- Epilog established a design partnership with Discovery Health, a leading global health insurance group, which includes a pilot program with its members, started March. The pilot aims to demonstrate enhancing early access to palliative care and the end of life journey for Discovery Health members, whereby improving member satisfaction, improving the clinical outcomes for these patients and reducing total cost of care.

- **Business Strategy**

- Epilog's business model is B2B based on health plan efficiency gains in the first stage. Our patient-centric solution is aimed at improving member engagement and optimizing communication to the betterment of member experience and health services utilization.

- **What's Next?**

- Next, Epilog plans to begin similar pilot projects with our current pipeline of US based health plans, and in parallel pursue our clinical PoC with a leading university medical center, scheduled for H2 23 and 2024. To support these, as well as the transition to commercial development, Epilog plans to raise a seed round by the end of 2023.
