SESSIONS Digital health role in 2024 and forward

o Executive Summary / Investment Rational Briefly describe the company's technology or therapeutic focus; the market opportunity, progress made to date, key partnerships or joint ventures, investment to date; and management strengths: Eleos Health turns behavioral health conversations into documentation and intelligence that drives better care. We reduce documentation work by 50% while unlocking objective insights into evidence-based care through augmented intelligence that improves outcomes by 3–4X. With Eleos CareOps Automation, providers are focused more on delivering care and less on operations.

o Core Technology What is the technology, its uniqueness, and its value proposition? Eleos has the largest LLM specifically build and designed for behavioral health. Our proprietary, voice-based Natural Language Understanding (NLU) technology purpose-built for behavioral health by clinical experts o Product Profile/Pipeline Briefly describe the company's product/pipeline, status, and market potential. Discuss milestones, potential collaborations, and partnerships: Eleos is the #1 enterprisewide AI workflow automation for behavioral health. With >100 enterprise customers, serving thousands of clinicians. We are integrated with >90% of this industry EHRs and telehealth solution, serving both face to face and telehealth sessions.

o Business Strategy Briefly describe how the company will apply its core technology, generate shortterm and long-term revenues. Continue to build our revenue stream to hit \$100M in ARR and serving tens of thousands of clinicians worldwide.

o What's Next? R&D, Preclinical / Clinicals, Organizational Plans, Financial Plans Serving all type of use cases from psychiatry, group sessions, intakes, multi-language, etc
