

Dr. Tamar Eigler, co-founder and CTO of ProFuse Technology. Dr. Eigler will discuss her pivotal role in uncovering a novel signaling pathway for muscle stem cells, a discovery made during her academic postdoc. She will then explore the subsequent transition into entrepreneurship with the support of the IIA, detailing ProFuse's approach to adapting its market and technological strategy within the dynamic landscape of cultivated meat and targeted muscle therapies.

1. בפאנל C צריך לציין שד"ר אביב זאבי מנחה את הפאנל.
