

**Daniel Goldstein, PhD**

Dr. Daniel Goldstein is a senior patent attorney at Sanford T. Colb & Co. He is a licensed attorney in Israel, and is additionally licensed to practice before the Israel and US patent offices. Dan and his team prepare and prosecute patent applications in various fields, including medical devices, mechanical devices, software, and others. Dan assists clients to enhance the strength of their patent portfolios, and to assess and address issues associated with the patent portfolios of competitors. They also work with investors performing due diligence.

In addition, Dan is a lecturer of Law and Technology at the College of Law & Business in Ramat Gan.

Dan received a Ph.D. in Bioengineering from the University of Pennsylvania, a BSE in Mechanical Engineering from Princeton University, and an LLB from the College of Law & Business.
