

Lawrence Obstfeld, CEO, Image Navigation Ltd.

Lawrence Obstfeld, CEO of Image Navigation, a former Wall Street analyst has raised over \$200 million for a number of emerging growth companies in disparate fields such as: Medical Device, Software and Industrial technology, including Enigma Information Systems, BetaGene and Niton. He is the architect of the IGI product-market fit, including: the installed base of 40,000 dental CT scanners, the robotic auto-stop value-add and the importance of a chairside workflow.

Lawrence will present IGI version 2.0, the next generation surgical navigation and robotic system for dental implantology and other precise surgeries. R&D in Har Hozvim, Jerusalem. Executive Office in New Jersey.
