

Dr. Jason Johnson
Chief Data and Analytics Officer

Jason Johnson is Chief Data and Analytics Officer at the Dana-Farber Cancer Institute in Boston, Massachusetts, where he is responsible for the Informatics and Analytics department. Prior to joining Dana-Farber in 2016, Jason was Executive Vice President and Head of R&D at PatientsLikeMe, a patient-focused research company in Cambridge, MA. He came to that position after 16 years in the biotech and pharmaceutical industries in various leadership roles in informatics, IT, bioinformatics, and genomics. His last role at Merck & Co., Inc. was Associate Vice President, Scientific Informatics. Jason has AB and BS degrees from Stanford University, a Master's degree from the University of Cambridge in the UK, and a PhD in Biophysics from Harvard University.
