

Dr. Tammy Ben-Yedidia, PhD.

CSO & clinical management

Dr. Tammy Ben-Yedidia PhD has more than 30 years of experience in the field of immunology, with specific expertise in the development of vaccines. She has served for over 15 years as the CSO at BiondVax, leading the company's R&D, pre-clinical and clinical programs.

Dr Ben-Yedidia's career started at Biotechnology General Ltd, BTG (Rehovot), where she worked on development of a recombinant Hepatitis-B vaccine. Next, she completed her PhD at the Weizmann Institute of Science. Her research centered on the design of a peptide-based vaccine against several pathogens, focusing on influenza. In collaboration with other leading scientists in the field, Dr. Ben-Yedidia participated in two European Consortium-sponsored projects related to evaluation of different approaches for vaccination. Dr. Ben-Yedidia holds several patents and numerous refereed articles and invited reviews in various renowned scientific journals.
