

## **Professor Gal Ifergane**

Prof. Gal Ifergane is a clinical Neurologist, active researcher, health-care executive, and consultant to pharma and biomed startup companies. He completed his education and training in BGU and Soroka Medical Center in Beer-Sheva, Israel. Since 2012 he has served as the Head of Soroka's Neurology department. As a Deputy Director of the medical center, Prof. Ifergane created the vision for and led the development of the Brain Medicine Division, which he also currently chairs. Since the beginning of the COVID-19 pandemic he extensively practiced, advocated and developed deployment programs for Tele-Neurology.
