

Short biography of presenter, for Biomed Israel 2022:

Alon Meir, PhD - Chief Scientist

Dr. Meir guides the technology and research efforts at Seevix. Over the last 18 years he has held different roles in research and product development at several biotech companies, leading groups of up to 20 researchers. Such efforts have yielded commercialized products, more than 20 research papers, and several patents authored by him in the fields of pharmaceuticals and R&D products. Dr. Meir holds a PhD in physiology from the Hebrew University and a postdoc from University College London (UCL) in pharmacology of neurons and their receptors.
