

Amir Danino

Founder & CEO, INNOVENTRIC

Amir has vast experience in medical device development, mainly structural heart interventional devices. He served in exciting structural heart projects, bringing aortic, mitral, and tricuspid valve devices from concept to clinical application. Amir has broad experience in R&D, CA/RA, and BD.

Amir holds a B.Sc. in Biomedical Engineering from Ben-Gurion University and an M.Sc in Mechanical Engineering from Tel-Aviv University.
