

Dror Bin

CEO

Dror Bin is the CEO of the Israel Innovation Authority, an independent public entity that operates for the benefit of the Israeli innovation ecosystem and Israeli economy as a whole. Its role is to nurture and develop Israeli innovation resources, while creating and strengthening the infrastructure and framework needed to support the entire knowledge industry.

Prior to his role at the Authority, Dror served as President and CEO of RAD Data Communications, a leading global telecom network solutions company with hundreds of employees at the company's headquarters in Tel Aviv, a manufacturing center in Jerusalem and development center in Beer Sheva as well as dozens of corporate branches around the world.

Dror also served in a series of positions for close to a decade at Converse Technology, the last one as a member of the management team and VP of Global Sales. Following this, Dror served as a venture partner at Carmel Ventures and a chairman at several of its portfolio companies. In addition, Dror served as a partner at Shaldor, a leading management consulting firm in Israel, where he led the development and implementation of business and marketing strategies for major organizations in the financial, consumer, retail, high-tech, banking and other industries.

Dror holds two bachelor's degrees from the Technion – Israel Institute of Technology: one in systems information engineering and the other in industrial management, as well as an MBA from Tel Aviv University.
