

Eyal Lifschitz
Co-founder & Managing General Partner

Eyal Lifschitz is an entrepreneur and investor with years of experience in establishing and managing Life science companies and their business development efforts.

Eyal serves as the Co-founder and Managing General Partner of Peregrine Ventures, a global investment firm dedicated to improving patients' quality of life by investing and supporting life changing healthcare opportunities. In this role, he oversees all daily operations and mentors entrepreneurs on their journeys to bring innovative medical technologies to market.

On behalf of Peregrine, Eyal serves on the boards of Memic Innovative Surgery, Ribon Therapeutics, CardioValve, Nectin Therapeutics, Restore Medical, Kahr, Cordio Medical, Raziel Therapeutics and others.

Previously, Eyal was involved as a founder and a manager in PharmaSys (acquired by Elan Corp. NYSE: ELN), ECR (acquired by AVX Corp. NYSE: AVX), Visioncare Ophthalmic Technologies, and BioControl and as a director of Given Imaging (NASDAQ: GIVN).

Eyal serves as chairman in the Israeli Early-Stage Investors Association (IEI) & Technology Incubator Forum (ITIF) which promotes Israeli high-tech ventures in domestically and abroad. Eyal is also a founder and chairman of GamVeGam, a non-for-profit cooperation between the Israeli Ministry of Education and the Israeli high-tech industry, which aims encourage high tech professionals to become teachers in public schools

He holds an LLB from the Academic Center for Law and Science.
