

Amnon Barlev

Co-Founder and CEO

Amnon is the Founder and CEO of Alike, a healthcare startup on a mission to unlock the untapped power of patient similarity networks, turning medical profiles into empowering insights.

Amnon brings his deep management and execution skills from his 25+ years of experience in technology leadership roles to Alike – including as the former President of Check Point, a \$15B publicly traded technology company, where he grew revenue from \$500M to \$2B over his 12-year tenure.

Amnon is also a passionate healthcare advocate and returned to pursue graduate studies at the Sackler School of Medicine at Tel Aviv University after his time at Check Point - an effort he embarked on in order to better understand medicine before founding Alike.
