

Eran Harary, MD

Senior Vice President, Global Head of the Specialty R&D organization at Teva Pharmaceuticals. A medical doctor and a board certified in psychiatry. Eran has more than 17 years-experience in senior global managerial and leadership roles in international large pharmaceutical companies and smaller biotech companies both in Israel and in the US (including Lundbeck and Pfizer Global Headquarters in New York, USA). Experienced in world-wide Lifecycle Management of pharmaceuticals from concept through all development stages to post approval. Eran is also experienced in building R&D capabilities in Artificial Intelligence, Machine Learning and Big Data to introduce broader use of digital technologies to help drive efficiencies and improved outcomes in pharmaceutical R&D. Eran earned his MD degree from the Sackler School of Medicine in Tel Aviv, and later trained and practiced as a psychiatrist at the Chaim Sheba Medical Center, Tel- Hashomer.
