

Tami Yardeni, VP, Global Clinical Operations, Teva Pharmaceuticals

Tami Yardeni is the Head of Global Clinical Operations at the Global R&D Group at Teva. In this role, she is responsible for the leadership, overall strategic direction, management and accountability of the Global Clinical Operations function. She has final accountability for the operational execution of global development programs across all indications from Phase I to Phase IV.

Tami has more than 15 years of experience in the pharmaceutical industry in various capacities, gained within pharma and CROs. In Teva, before her current position, she headed the Global Data Management & Programming Department; she led the strategic planning and execution of data management outsourcing and off-shoring and led post-acquisitions integration processes for various functions. She holds an MA degree in applied statistics.
