

Dario G. Liebermann (dlieberm@tau.ac.il) completed a Ph.D. degree in the department of Computer Science and Applied Mathematics at the Weizmann Institute of Sciences in 1998, followed by post-doctoral research in clinical motor neurosciences in the Faculty of Medicine of the Calgary University (1999-2000). Previously, he earned a M.Sc. degree (1988) in Motor Control from the Faculty of Applied Sciences at the Simon Fraser University, Canada. Since 2000, Prof. Liebermann is with the department of Physical Therapy at the Sackler Faculty of Medicine - Tel-Aviv University, where he served as Chairperson from 2010 to 2014. He is ad hoc reviewer and editorial board member in several leading journals in the area, and since 2012 he is Associate Editor of the Journal of Electromyography and Kinesiology. He supervised more than 30 graduate students, lectures at undergraduate and graduate levels on different aspects of the human movement sciences and their practical implementation in the healthy (e.g., elderly, athletes) and in patients, both neurological (stroke and dystonia) and orthopedic\musculoskeletal (shoulder and knee). His research focuses on theoretical aspects of human motor control and their applications to movement behavior, motor enhancement and function recovery.
