

**Dr. Eti Yoles / Chief Scientific Officer**

Dr. Yoles has years of high-level experience in managing research and biotech development, specifically in the field of neuro-immunology. Prior to ImmunoBrain Checkpoint she served as CSO of Immunobrain Therapies, and prior to that as general manager and co-founder of NeuroQuest between 2008 to 2010 and as VP of Product Research and Development at Proneuron Biotechnologies Inc. between 2000 to 2008. Prior to Proneuron, she worked for 10 years, first as a post-doctoral fellow and later as a scientist in the laboratory of Professor Michal Schwartz at the Weizmann Institute of Science, where she studied the physiological aspects of post-traumatic neuronal survival. Dr. Yoles holds a B.Sc. in biology, M.Sc. in physiology, and Ph.D. in neurobiology from Bar Ilan University.
