

Amir Magner
CEO, CyberMDX

Amir Magner is the co-founder and CEO of CyberMDX. He served in the Israeli Prime Minister's Office for more than two decades, in which he held several senior executive level positions, with his last position as head of the Cyber Division. As part of this position, Amir's responsibilities included managing some of the national strategic activities and infrastructures. Amir has a MSc from Tel Aviv University in Electrical Engineering, an Executive MBA from Hebrew University and his BSc from the Technion in Electrical Engineering.
